FIFRA 2(ee) Recommendation for the Control of Annual Bluegrass Weevil in Golf Course Turfgrass When Applied in Combination with Bifenthrin

BotaniGard ES
EPA Reg. No. 82074-1

Directions for Use:

• It is a violation of federal law to use this product in a manner inconsistent with its labeling.

• This recommendation must be in the possession of the user at the time of pesticide application.

• Follow all applicable directions, restrictions, and precautions on the product label.

• For control of annual bluegrass weevil in golf course turfgrass, including pyrethroid-resistant populations, apply BotaniGard ES at a rate of 2 – 4 fluid ounces/1000 ft² in combination with 0.0023 pounds of bifenthrin per 1000 ft² (0.1 pounds of bifenthrin per acre).

• For optimum results, apply once at the time of peak adults and if problems persist a second time 7-10 days later.
