FIFRA 2(ee) Recommendation

Researcher and Title: Dr. Margaret Tuttle McGrath, Department of Plant Pathology, Cornell University

Pesticide Name and EPA Reg. No.: Bravo Ultrex Agricultural Fungicide, EPA Reg. No. 50534-201-100

Target Crops: Cantaloupe, Cucumber, Honeydew Melon, Muskmelon, Pumpkin, Squash and Watermelon

Target Pest: Plectosporium blight, caused by the fungus *Plectosporium tabacinum*

Directions for Use:
- This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the U.S. EPA.
- This recommendation must be in the possession of the user at the time of pesticide application.
- After detection of Plectosporium blight, apply at 1.4 to 2.7 pounds of Bravo Ultrex Agricultural Fungicide every 7-10 days, less frequently under dry conditions unfavorable for disease.
