II. Administrative Procedure Act

Under the Administrative Procedure Act ("APA"), notice of a proposed rulemaking is not required when the agency, for good cause, finds "that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest." FinCEN is making technical amendments to the Temporary Exemption Rule to ensure that the list of temporarily exempted financial institutions is accurate and not confusing. FinCEN, therefore, finds that publishing the amendments for comment is unnecessary.

In addition, publication of a substantive rule not less than 30 days before its effective date is required by the APA except as otherwise provided by the agency for good cause. For the same reasons described above with respect to notice and opportunity for comment, FinCEN finds that there is good cause for making these technical amendments effective on January 11, 2008.

III. Regulatory Flexibility Act

Because no notice of proposed rulemaking is required for this final rule, the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) do not apply.

IV. Executive Order 12866

This final rule is not a "significant regulatory action" as defined in Executive Order 12866. Accordingly, a regulatory assessment is not required.

List of Subjects in 31 CFR Part 103

Banks and banking, Brokers, Counter money laundering, Counter-terrorism, Currency, Foreign banking, Reporting and recordkeeping requirements.

Authority and Issuance

For the reasons set forth above, FinCEN is amending 31 CFR part 103 as follows:

The APA except as otherwise provided by the agency for good cause.

List of Subjects in 31 CFR Part 103

Thiabendazole; Threshold of Regulation Determination

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes by rule that there is no need for a tolerance or tolerance exemption under the Federal Food Drug and Cosmetic Act (FFDCA) for the use of the fungicide thiabendazole as a seed treatment on dry peas. II. Background

In the Federal Register of October 3, 2007 (72 FR 56325) (FRL–8151–6), EPA issued a proposed rule pursuant to sections 408(e) and 701(a) of the Federal Food, Drug, and Cosmetic Act (FFDCA). The proposed rule explained the Agency’s determination that the use of the fungicide thiabendazole [2-(4- thiazolyl)benzimidazolzo] as a seed treatment on dry peas does not need an FFDC tolerance or tolerance exemption based on EPA’s finding that any residues that remain in food from this use will be both non-detectable and below the level of regulatory concern. The proposed rule included a discussion of the Agency’s threshold of regulation (TOR) policy and identified the information (including toxicity data, residue data and the analytical method) that EPA relies on in making this TOR determination; it also established a 60–day public comment period. There were no comments received in response to the proposed rule.

III. Action on the Proposed Regulation

Based upon the rationale and findings set forth in the proposed rule, the use of thiabendazole as a seed treatment on dry peas (including field pea, pigeon pea, chickpea or lentil) is designated as below the threshold of regulatory concern and thus as not requiring a tolerance or a tolerance exemption under FFDC. The use is identified as such under 40 CFR 180.2010 (Threshold of regulation determinations).

Designation of this use as below the level of regulatory concern does not legalize any detectable residues of thiabendazole on food. It does mean that, despite labeling for this use on a food or feed crop, it may be registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), 7 U.S.C. 136 et seq., without obtaining a tolerance or exemption from the requirement of a tolerance as otherwise required by 40 CFR 152.112(g). The text of the regulation has been clarified on this point.

Adequate analytical methodology (High Pressure Liquid Chromatography/Fluorescence Detector (HPLC/FLD) method) is available to detect residues of thiabendazole in/on dry peas. The method may be requested from: Chief, Analytical Chemistry Branch, Environmental Science Center, 701 Maple Rd., Ft. Meade, MD 20755–5350; telephone number: (410) 305–2905; e-mail address: residuemethods@epa.gov.

IV. Statutory and Executive Order Reviews

The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled Regulatory Planning and Review (58 FR 51735, October 4, 1993, as amended by Executive Order 13422, 72 FR 2763, January 18, 2007). Because this rule has been exempted from review under Executive Order 12866, this rule is not subject to Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution or Use (66 FR 28355), May 22, 2001 or Executive Order 13045, entitled Protection of Children from Environmental Health Risks or Safety Risks (62 FR 19885, April 23, 1997).

This rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 et seq., nor does it require any special considerations under Executive Order 12898, entitled Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations (59 FR 7629, February 16, 1994).

In addition, pursuant to section 605(b) of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 et seq.), the Agency, for the reasons explained in the proposed rule, certifies that this rule will not have a significant adverse economic impact on a substantial number of small entities because this rule does not have any adverse economic impacts.

This rule directly regulates growers, food processors, food handlers and food retailers, not States or tribes, nor does this action alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of section 408(n)(4) of FFDCA. As such, the Agency has determined that this action will not have a substantial direct effect on States or tribal governments, on the relationship between the national government and the States or tribal governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian tribes. Thus, the Agency has determined that Executive Order 13132, entitled Federalism (64 FR 43255, August 10, 1999) and Executive Order 13175, entitled Consultation and Coordination with Indian Tribal Governments (59 FR 22951, November 6, 2000) do not apply to this rule. In addition, this rule does not impose an enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded
Mandates Reform Act of 1995 (UMRA) (Public Law 104-4).

This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note).

V. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 et seq., generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the Federal Register. This final rule is not a “major rule” as defined by 5 U.S.C. 804(2).

Acquisition Regulation: Guidance on Use of Award Term Incentives; Administrative Amendments

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) amends the EPA Acquisition Regulation (EPAAR) to add policy, procedures, and contract clauses for the use of award term incentives. This rule makes two administrative changes to the EPAAR. One change is to reflect the Civilian Board of Contract Appeals as EPA’s new forum for appeals under the Contract Disputes Act of 1978. The other change corrects a numbering error in Subpart 1516.4.

DATES: This final rule is effective on February 11, 2008.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA–HQ–OARM–2003–0001. All documents in the docket are listed on the www.regulations.gov Web site. I. Supplementary Information
A. Background

EPA published a proposed rule in the Federal Register at 72 FR 56708, October 4, 2007 to add guidance to the EPAAR on the use of award term contracts and make two administrative changes. The comment period closed on December 3, 2007. One comment was received. The respondent pointed out, effective January 6, 2007, the Board of Contract Appeals that existed at the General Services Administration was terminated and the cases were transferred to the Civilian Board of Contract Appeals. Our proposed rule stated EPA has changed its forum for appeals under the Contract Disputes Act of 1978 from the Department of Interior Board of Contract Appeals to the General Services Administration Board of Contract Appeals. The rule should have stated EPA has changed its forum for appeals under the Contract Disputes Act of 1978 from the Department of Interior Board of Contract Appeals to the Civilian Board of Contract Appeals. The final rule is revised to substitute the Civilian Board of Contract Appeals for the General Services Administration Board of Contract Appeals in section...
