FIFRA 2(ee) Recommendation for the Control of Japanese Knotweed (*Fallopia japonica*) and Giant Knotweed (*Fallopia sachalinensis*)

**Crossbow**

EPA Reg. No. 62719-260

**Directions for Use**

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This recommendation must be in the possession of the user at the time of pesticide application.
- Follow all applicable directions, restrictions, and precautions on the product label.
- For control of Japanese knotweed and giant knotweed, applications can be made at all sites listed on the Crossbow product label.
- Follow all applicable maximum yearly and per application use rate limits for each use site listed on the Crossbow product label.
- Use mechanical cutting to bring the knotweed down to less than three feet in height.
- For control of Japanese knotweed and giant knotweed, apply 0.75 to 1.5 gallons of Crossbow per acre as a foliar spray in enough water to deliver 10 to 30 gallons of total spray per acre.
