FIFRA 2(ee) Recommendation
Control of Reed Canary Grass in Noncrop Areas

Fusilade DX Herbicide
EPA Reg. No. 100-1070

Directions for Use

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- Follow all applicable directions, restrictions, and precautions on the Fusilade DX Herbicide product label.
- This recommendation must be in the possession of the user at the time of the pesticide application.
- Apply Fusilade DX Herbicide at 24 fluid ounces per acre as a broadcast spray to control reed canary grass in noncrop areas.
- Add a nonionic surfactant (at 0.25-0.50% v/v) or a crop oil concentrate (at 1% v/v) in the finished spray volume.
- Do not apply more than 72 fluid ounces of Fusilade DX Herbicide per acre per year.
