FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE NEW YORK

FOR INCREASING FRUIT SET AFTER FROST IN APPLE
DIRECTIONS FOR USE

<table>
<thead>
<tr>
<th>Crop</th>
<th>Objective / Benefit</th>
<th>PRODUCT/A</th>
<th>APPLICATION METHOD and TIMING</th>
</tr>
</thead>
<tbody>
<tr>
<td>Apple</td>
<td>To increase fruit set after frost.</td>
<td>16-32 ounces</td>
<td>Apply within 24 hours after a frost event when the majority of the crop is between early bloom and full bloom. Apply in 75 to 150 gallons of water per acre.</td>
</tr>
</tbody>
</table>

Note:
Do not apply to frozen foliage, blossoms or developing fruit. Allow trees to completely thaw prior to application. Apply Promalin in sufficient amount of water to ensure thorough, but not excessive coverage. Adjust water volume based on tree size and spacing. Do not use a surfactant.

Follow all applicable directions, restrictions and precautions on the EPA-registered labels.

It is a violation of Federal law to use these products in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of application.

THIS RECOMMENDATION EXPIRES December 31, 2015
