FIFRA 2(ee) Recommendation for the Control of Japanese Knotweed, Giant Knotweed and Bohemian Knotweed

Accord XRT II
(EPA Reg. No. 62719-556)

Directions for Use

• It is a violation of federal law to use this product in a manner inconsistent with its labeling.
• This recommendation must be in the possession of the user at the time of pesticide application.
• Follow all applicable directions, restrictions, and precautions on the product label.
• Applications can be made at all sites listed on the Accord XRT II product label.
• For best results, applications should be made during periods of active growth.
• Follow all applicable maximum seasonal and per application use rate limits for each application site listed on the Accord XRT II product label.

Stem Injection

• For control of Japanese knotweed, giant knotweed and bohemian knotweed:
  ➢ Inject 2 to 5 mL per stem of Accord XRT II at 100% concentration.
