FIFRA 2(ee) Recommendation for the Control of Burning Bush, Japanese Barberry, Porcelain Berry and Yellow Iris

Directions for Use

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This recommendation must be in the possession of the user at the time of pesticide application.
- Follow all applicable directions, restrictions, and precautions on the product label.
- For control of burning bush, Japanese barberry, porcelain berry and yellow iris, applications can be made at all sites listed on the Rodeo product label.
- For best results, applications should be made during periods of active growth.
- Follow all applicable maximum seasonal and per application use rate limits for each use site listed on the Rodeo product label.

Foliar Application

- Burning Bush, Japanese Barberry, Porcelain Berry and Yellow Iris:
  - Apply a 1-5% solution of Rodeo as a spray-to-wet application. Do not apply to the point of runoff.

Cut Stump Treatment

- Burning Bush:
  - Apply a 20-100% solution of Rodeo to the freshly cut surface immediately after cutting.
- Japanese Barberry and Porcelain Berry:
  - Apply a 25-100% solution of Rodeo to the freshly cut surface immediately after cutting.

Wick/Wiper Application

- Yellow Iris:
  - Apply a 25-33% solution of Rodeo using suitable wiper equipment.
