FIFRA 2(ee) Recommendation for the Control of Sticky Sage *(Salvia glutinosa)*

**Rodeo**

EPA Reg. No. 62719-324

**Directions for Use**

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This recommendation must be in the possession of the user at the time of pesticide application.
- Follow all applicable directions, restrictions, and precautions on the product label.
- For control of sticky sage, applications can be made at all sites listed on the Rodeo product label. A permit may be required to apply this product in aquatic sites.
- For best results, applications should be made during periods of active growth.
- Follow all applicable maximum seasonal and per application use rate limits for each use site listed on the Rodeo product label.

**Foliar Application**

- Apply a 1-5% solution of Rodeo to the foliage of vegetation to be controlled. Do not spray to the point of runoff for applications made on a spray-to-wet basis. Use coarse sprays only. For best results, cover the top half of the plant and at least half of the total foliage. To ensure adequate spray coverage, spray both sides of large or tall woody brush and trees, when foliage is thick and dense, or where there are multiple sprouts.
