FIFRA 2(ee) Recommendation for the Control of Japanese Stiltgrass (Microstegium vimineum)

Directions for Use
- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This recommendation must be in the possession of the user at the time of pesticide application.
- Follow all applicable directions, restrictions, and precautions on the product label.
- For control of Japanese stiltgrass, applications can be made at all sites listed on the Roundup Custom for Aquatic & Terrestrial Use product label.
- For best results, applications should be made during periods of active growth.
- Follow all applicable maximum seasonal and per application use rate limits for each use site listed on the Roundup Custom for Aquatic & Terrestrial Use product label.

Foliar Application
- Apply a 0.25% to 2% solution of Roundup Custom for Aquatic & Terrestrial Use as a spray-to-wet application. Do not apply to the point of runoff.
