FIFRA 2(ee) Recommendation for the Control of False Spiraea and Japanese Spiraea

Roundup Custom for Aquatic & Terrestrial Use

EPA Reg. No. 524-343

Directions for Use

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This recommendation must be in the possession of the user at the time of pesticide application.
- Follow all applicable directions, restrictions, and precautions on the product label.
- For control of false spiraea and Japanese spiraea, applications can be made at all sites listed on the Roundup Custom for Aquatic & Terrestrial Use product label. A permit may be required to apply this product in aquatic sites.
- For best results, applications should be made during periods of active growth.
- Follow all applicable maximum seasonal and per application use rate limits for each use site listed on the Roundup Custom for Aquatic & Terrestrial Use product label.

Foliar Application

- For foliar application, apply a 1-3% solution of Roundup Custom for Aquatic & Terrestrial Use as a spray-to-wet application.

Cut Stump Treatment

- Apply a 25-100% solution of Roundup Custom for Aquatic & Terrestrial Use to the freshly cut surface immediately after cutting.
