DuPont Oust XP Herbicide
EPA Reg. No. 352-601

Directions for Use

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of pesticide application.
- DuPont Oust XP Herbicide may be tank-mixed with Accord XRT II (EPA Reg. No. 62719-556). When tank mixing, use the most restrictive limitations from the labeling of both products.
- Apply DuPont Oust XP Herbicide at the rate of 2 to 5 ounces per acre for control of hayscented fern (*Dennstaedtia punctilobula*) and/or New York fern (*Thelypteris noveboracensis*).
- Apply to target species between frond maturation and frond senescence, roughly June 15th to October 15th.
- Do not apply more than 8 ounces of DuPont Oust XP Herbicide per acre per year.
- Follow all applicable directions, restrictions, and precautions on the product label.
- Do not make applications to natural or man-made bodies of water such as lakes, reservoirs, ponds, streams, and canals as directed on the product label.
- The recommended rate of this product may be used in a tank mix with the Accord XRT II herbicide for forestry site preparation to control hayscented fern and/or New York fern.
