FIFRA 2(ee) Recommendation for the Control of Hardy Kiwi (*Actinidia arguta*)

Pathfinder II

EPA Reg. No. 62719-176

**Directions for Use**

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This recommendation must be in the possession of the user at the time of pesticide application.
- Follow all applicable directions, restrictions, and precautions on the product label.
- For control of hardy kiwi, applications can be made at all sites listed on the Pathfinder II product label.
- For best results, applications should be made during periods of active growth.
- Follow all applicable maximum seasonal and per application use rate limits for each use site listed on the Pathfinder II product label.

**Basal Bark Application**

- Apply a 100% solution of Pathfinder II with a backpack or knapsack sprayer using low pressure and a solid cone or flat fan nozzle. Spray the basal parts of brush and tree trunks in a manner which thoroughly wets the lower 12 to 15 inches of stems, including the root collar area, but not to the point of runoff.

**Cut Stump Treatment**

- Apply a 100% solution of Pathfinder II to the freshly cut surface to wet the area adjacent to the cambium and bark around the area circumference and the sides of cut stumps. Sides of stumps should be thoroughly wetted down to the root collar area, but not to the point of runoff.
