Dear Ms. Aschbrenner:

Re: FIFRA 2(ee) Recommendation for the use of Suspend SC (EPA Reg. No. 432-763)

The Department of Environmental Conservation has approved your FIFRA 2(ee) recommendation for the use of **Suspend SC (EPA Reg. No. 432-763)** on turfgrass sites and landscape ornamentals to control the unlabeled pest mosquito.

Enclosed is the stamped "accepted" copy of the recommendation as it is to appear in the Cornell Pest Management Guidelines. If you have any questions regarding this letter please contact me at 518-402-8768.

Sincerely,

Shaun M. Peterson
Environmental Chemist I

Suspend SC

EPA Reg. No. 432-763

For Control of Mosquitoes on Commercial and Residential Turf and Landscape Ornamental Plants

PRODUCT BULLETIN

FOR DISTRIBUTION AND USE ONLY IN THE STATE OF NEW YORK

FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or accepted by the U.S. Environmental Protection Agency. It is a violation of federal law to use this product in a manner inconsistent with its label. This product bulletin must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product inconsistent with its labeling.

RECOMMENDED APPLICATIONS

Application Rates For Turf Grass Sites:

| Sites | Pests | Rates | Remarks |
|--|------------|---|---|
| Athletic fields, recreational areas, lawns & grounds, parks, public and commercial sites | Mosquitoes | 0.4 to 0.6 fl oz/1000 sq. ft or 17.5 to 26 fl oz/Acre or 0.06 to 0.08 lb ai/A | Apply when pests become evident. Apply as a broadcast spray in a minimum of 2 gallons of water per 1000 sq. ft. Delay irrigation or mowing for 24 hours after application for optimum control of surface-feeders. |

Landscape Ornamental Treatments:

Suspend SC Insecticide provides control of a wide range of insects on landscape ornamentals. Mix Suspend SC with the required amount of water according to the Application Rates for Ornamentals table below. Thoroughly apply the finished spray to upper and lower leaf surfaces to ensure adequate coverage, but prior to dripping. Be sure to penetrate dense foliage to wet leaves, trunk and branches.

Plant safety testing has been conducted on many species of ornamental plants under a wide range of environmental and cultural conditions and no injury has been observed. If local use information is not available, it is advisable to pre-spray a few plants.

Application Rates for Ornamentals:

| Sites | Pests | Rate | Remarks |
|--|------------|--------------------------------|---|
| Landscape ornamentals including trees, shrubs, evergreens and foliage plants | Mosquitoes | 4 to 8 oz/100 gallons of water | Apply when pests become evident. Thorough coverage is required for best results. Apply with sufficient water to ensure coverage of upper and lower leaf surfaces. |

NOTES:

- DO NOT apply Suspend SC through any type of irrigation system.
- DO NOT apply this product to edible crops.
- DO NOT apply to institutions (including libraries, sport facilities, etc.) in the immediate area when occupants are present.

NOTE: In New York State, product may not be applied to turf within 100 feet of a coastal marsh or stream that drains directly into a coastal marsh. For control of turf insects in New York, a second application may be made after two weeks if target insect activity persists.
