Complete Recommendation as it will appear in Cornell Recommends:
All applicable directions, restrictions, and precautions on the Prescription Treatment brand Alpine Flea Insecticide with IGR (EPA Reg. No. 499-540) label must be followed. This recommendation must be in the possession of the user at the time of pesticide application.

Directions for Use:
SHAKE WELL BEFORE USE! Do not apply to areas where prolonged human contact will occur. Apply where bed bugs harbor or are suspected of traveling. Treat the perimeter of the room at the wall/floor junction, behind, under and/or inside furniture, head boards, wall coverings and box springs. Allow furniture and box springs to dry before use. Do not apply to mattresses. If evidence of bed bugs is found in/on mattresses, use products approved for this use. When treating furniture (i.e. sofas and chairs), do not apply to areas with prolonged human contact. When treating luggage, apply only to empty luggage. Direct product into pockets, seams, folds and around wheels. Treat the perimeter of the area or room where items are stored. Allow surfaces to dry before use. Check for staining issues before treating by testing a small, inconspicuous area of the item to be treated. Reapply as necessary.

Pest: Bed Bug
Use Sites: Apartments, Commercial Structures, Homes, Hotels, Kennels, Motels and Veterinary Clinics
Rate of Application: 20 oz./2625 sq. ft.
Retreatment Interval: Reapply as necessary.
