DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in any way that will contact workers or other persons; either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe; consult the agency responsible for pesticide regulation. Always read this FIFRA 2(ee) bulletin and the entire label on the product container before using this product.

DuPont™ ASANA® XL insecticide is recommended for the control of Spotted Wing Drosophila, Drosophila suzukii (Matsumura), in Apple, Pear, and Stone Fruit.

For Apple, Pear, and Stone Fruit, apply ASANA® XL at 4.8 to 14.5 fluid ounces per acre.

Application Timing

Applications to protect against Spotted Winged Drosophila (SWD) damage should begin as fruit starts to ripen or when local monitoring indicates the first presence of SWD adults in your area. Repeat applications may be required to protect the crop up until harvest. Post harvest orchard floor applications can also be used to control SWD adults laying eggs on fruit that has fallen to the ground.

Consult your state cooperative extension service, professional consultants or other qualified authorities to determine appropriate action treatment threshold levels for treating Spotted Winged Drosophila in your area.

Precautions

Read and follow all directions, restrictions, and precautions on the ASANA® XL Federal Section 3 Label before using this product.

For Stone Fruit, observe a 14 day pre-harvest interval (PHI) and do not apply more than 0.375 lbs. a.i. per acre per season with no more than 0.3 lbs. a.i. per acre per season between bloom and harvest. Do not graze livestock on treated orchard floors.

For Pears, observe a 28 day PHI and do not apply more than 0.375 lbs. a.i. per acre per season, and do not apply more than 0.225 lbs. a.i. per acre per season between bloom and harvest. Do not graze livestock on treated orchard floors.

For Apples, observe a 21 day PHI and do not apply more than 0.525 lbs. a.i. per acre per season. Do not graze livestock on treated orchard floors.

The restricted entry interval (REI) for ASANA® XL is 12 hours.
IMPORTANT NOTICE

BEFORE BUYING OR USING DUPONT PRODUCT(S) COVERED BY THIS BULLETIN, READ THIS BULLETIN, AND THE LABELS FOR ALL PRODUCTS REFERENCED IN THIS BULLETIN, IN THEIR ENTIRETY. FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS.

It is a violation of federal law to use this or any other pesticide product in a manner inconsistent with its labeling. This bulletin contains supplemental instructions for use of the referenced DuPont product. Follow these instructions carefully. This bulletin should be in the possession of the user at the time of application.

Read the Limitation of Warranty and Liability on the Section 3 Federal product label before buying or using THIS product. If terms are not acceptable, return the unopened package at once to Seller for full refund of purchase price paid. Otherwise, use by Buyer or any other User constitutes acceptance of the terms of the Limitation of Warranty and Liability on the Section 3 Federal product label.
